REPORT OF THE AUDITOR GENERAL
TO THE MEMBERS OF
GUYANA ELECTRICITY CORPORATION INC.
ON THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2002

I have audited the financial statements of Guyana Electricity Corporation Inc. for the year ended 31 December 2002 as set out on pages 5 to 19. The audit was conducted in accordance with the Audit Act 2004.

Respective Responsibilities of Management and Auditors

The preparation of the financial statements, including assertions relating to their completeness, accuracy, validity and compliance with applicable laws, regulations and contractual obligations, is the responsibility of the Management of Linden Mining Enterprise Limited. My responsibility is to express an independent opinion on the statements based on these assertions and to report my opinion to you.

Basis of Opinion

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by Management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

Qualified Opinion arising from Limitation in Scope and Uncertainty

Included in the financial statement is the sum of \$246.505M shown as Operating Revenues. However, supporting documentation to substantiate the amount shown was not presented audit examination. As a result, the completeness, accuracy and validity of the amount shown could not have been verified.

The amount of \$.781B is shown in the Balance Sheet as receivables. This amount represents amounts owing by customers at the time of privatization. However, supporting documentation to substantiate this amount was not presented for audit. As a result, the completeness, accuracy and validity of the amount shown could not be verified.

The amount of \$5.038B is shown in the Balance Sheet as Long Term Creditors. Included in this amount are the sums of \$4.637B and \$401M which represents Government of Guyana Loans and Consumer Deposits, respectively. However, supporting documentations to substantiate the amount shown as Consumer Deposits were not presented for audit examination. As a result, the completeness, accuracy and validity of the amount shown could not be verified.

Except for any adjustments which might have been shown to be necessary as a result of the matters referred to in the preceding paragraphs, in my opinion the financial statements present fairly, in all material respects, the financial position of the Guyana Electricity Corporation Inc. as at 31 December 2002, and its surplus and cash flows for the year then ended in conformity with generally accepted accounting principles.
