

NOTICE

GUYANA NATIONAL BUREAU OF STANDARDS

STANDARDS MARK

OVERVIEW:

The **Product Certification Scheme** is designed for affixing the Standards Mark on a product which conforms to the relevant National Standard.

The Standards Mark would carry Third Party Assurance of quality to the consumers. Permit to use the Standards Mark would be granted to manufacturers who have the capacity to produce products in conformity with the relevant National Standard on a continuous basis.

STANDARDS MARK

The Standards Mark is black. It consists of the acronym '**GNBS**' enclosed in a thick line circle. (Fig. 1)

The size of the Standards Mark which is to be applied to a product, would depend on the size of the label and the size of the product.

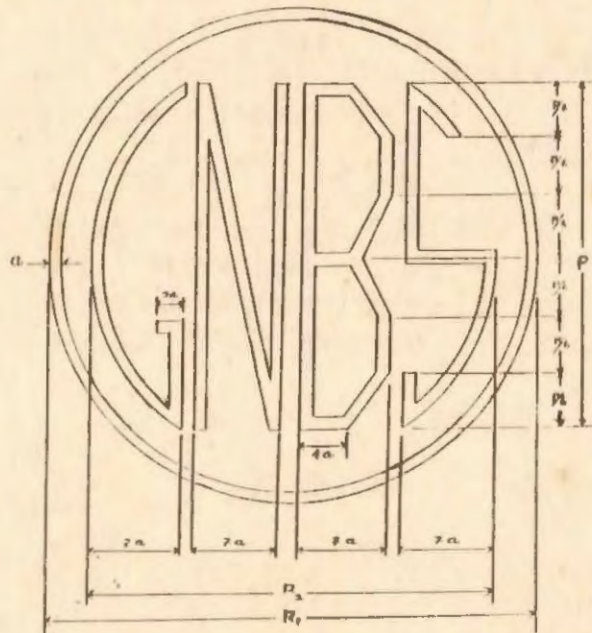

The preferred dimensions are given in Table 1. However, photographic reduction or enlargement to any size, as deemed necessary, would be permissible.

The number of the standard will be written on the top of the Mark.
