## **INSTITUTIONAL STRENGTHENING**

### **ONLINE MONITORING OF DECLARATION STATUS**

The GRA launched its online feature for the monitoring of Customs Declaration Status by importers, exporters and brokers. This is a web-based feature which enables them to access the information from their laptops or smart phones and prevents unnecessary trips to the Customs and Trade Administration.

### **AUTOMATION OF TRADE AND MISCELLANEOUS LICENCES**

During the year, the GRA commenced the use of its new Licence Revenue Processing System (LRPS). This allowed for the automation of the sale of Liquor, Trade and Miscellaneous Licences. In addition, the sale of the automated licences also commenced at various Integrated Regional Tax Offices countrywide.

### **AUTOMATION OF MOTOR VEHICLES REGISTRATION**

The utilization of the new LRPS also allowed for automation of the registration of motor vehicles. The automated system significantly reduces the time motor vehicle owners spend at the Licence Revenue Office while the new certificate of registration has enhanced security features such as watermark, micro fibers and ultraviolet images to allow for the detection of fraudulent certificates.

Initially, the new document was issued to persons registering new vehicles and subsequently to those requesting to change ownership of a vehicle, or change any of the facts (e.g. engine number, chasis number, colour of vehicle) stated on the registration.

### **NEW SYSTEM FOR RENEWAL OF MOTOR VEHICLE LICENCES**

The amendment of the Motor Vehicle and Road Traffic Act Chapter 51:02, allowed the GRA to introduce a new system for renewal of Motor Vehicle Licences on the anniversary date of the initial registration of the vehicle. Previously, all Motor Vehicle Licences expired on December 31st of the year of purchase. The new system allows for motor vehicle owners to be notified of the due date of renewal via mail and also allows them to pay for their Licence at several Commercial Banks country wide once they are in receipt of the notification.

### **RELOCATION OF GRA'S GEORGETOWN OFFICES**

GRA's Georgetown operations were carried out from six (6) separate locations. In an effort to improve efficiency, provide ease of access and timely service to taxpayers and the general public, a decision was taken to consolidate operations at the new Headquarters which is situated at Lot 200-201 Camp Street, Georgetown. This relocation, which commenced during the last quarter of 2012, was carried out in phases in order to minimize the disruption of services and is expected to conclude during the first quarter of 2013.

## **L: FACILITIES MANAGEMENT & OPERATIONAL SUPPORT SERVICES**

This Division is mandated to promote a safe, comfortable and clean working environment for staff of the Guyana Revenue Authority by facilitating the maintenance and renovation of buildings occupied by the various Departments/Divisions/Sections of the organisation, the servicing and maintenance of equipment in a timely and efficient manner, managing the security personnel and maintaining a pool of motor vehicles.

During the year under review, staff of the Division ensured that repairs and general maintenance of equipment were conducted throughout the Authority and these included repairs to and servicing of Uninterrupted Power Supply (UPS) systems, air conditioning units and generators. There was also electrical maintenance, the cleaning of the compounds and interior of buildings (including carpets and tiles) housing the various offices, pest control, plumbing works and other miscellaneous maintenance works.

Capital works were also completed at several locations. These included repairs to the Corriverton Office (both residence and office building), the roadway at the exit gate of the GNSC container site and the Secretariat building. The refurbishing of the bond used by the Berbice Anti-Smuggling Squad (BASS) was also undertaken and entailed supplying a new electrical service and meter, constructing a generator room, rewiring the building to accommodate the generator, painting and constructing a fence and gate. Other capital works conducted by the Facilities Management and Operational Support Services Division for 2012 included the installation of additional cameras at the Internal Affairs Division, construction of office for staff at the Marine facility, re-wiring the Boathouse and construction of a storeroom. In addition, barricades were constructed and installed and windows were fabricated and installed at the Crab Island office, a sign board and a trestle to house the water tank were constructed at the Eccles Warehouse, while the ceiling was repaired and the building wired to accommodate a generator set at the Anna Regina Office and a generator room was constructed at the Parika Office.

During the year, staff of the Division also commenced the supervision of extensive works at the Authority's new Headquarters located at 200-201 Camp Street, Georgetown, the former CLICO building. Some of these works included preparation of a floor plan to accommodate staff in the building, civil works such as the construction of offices and cubicles to accommodate staff, the installation of tiles, ceiling, locks and service counters, utilities and electrical works. The Division was also instrumental in the process of relocating of staff from the various Offices to the new Headquarters during the months of October 2012 to December 2012.

At the end of 2012, the preparation for capital works at several locations began with bills of quantity and estimates being completed. These projects are scheduled to commence in 2013 and include the renovation of the Mabura outpost, repairs to the Anna Regina Office and associated residence and procurement of a 20ft container for the Kurupukari office.

Staff of the Transportation Section of the Division also continued to manage the pool of motor vehicles operated by the Authority and ensured that they were serviced and repaired whenever necessary to maintain road worthiness. Further, staff of the Security Section of the Division made regular weekly and monthly visits to all of the Authority's locations to ensure that security procedures were being complied with.

## **M: DEBT MANAGEMENT DIVISION**

This Division is mandated to utilise the investment made in automation combined with efficient collection strategies to ensure that taxes which are due and debts which are outstanding are collected/recovered in a timely manner thereby maximizing revenue collection.

During the year under review, no special exercise was conducted to collect outstanding taxes. Strategies presently in place to aid in the collection of the taxes commence with telephone calls and visits and escalate to legal proceedings.

Staff were able to determine arrears taxes partly through the process of file clearing. During the period under review a total of one thousand, one hundred and sixteen (1,116) tax files were cleared comprising four hundred and thirty-six (436) which were related to Companies and six hundred and eighty (680) to Individual taxpayers. As a result of the file clearing exercise, a total of \$17.9 Billion in arrears taxes were identified and collection proceedings commenced with the dispatch of liability letters to taxpayers. The Division has collected in excess of \$10.1 Billion in total arrears for the year 2012. This amount was consistent with the total arrears collected for the corresponding period of 2011.

Presently, the Division is unable to determine the total arrears taxes unpaid to December, 2012 for several reasons including the issue of debts computed in taxpayers' files being absent on TRIPS and the inaccurate figure being generated for the total unpaid arrears as at December 31, 2012 for the Age Debtor Report. Recurring difficulties over the years have affected the Division from maximizing its full potential in the collection of outstanding taxes. These include:

- ❖ Taxpayers not easily located;
- ❖ The time lapse between the time taxpayers are eventually located and their readiness to respond;
- ❖ Numerous mails being returned to the Division as a result of taxpayers not being available to sign and receive same, since all mails of this nature are sent by registered post.
- ❖ Taxpayers reverting to various schemes in attempts to frustrate the efforts of the Authority in its collection drive;
- ❖ The inordinately long time in which matters before the Courts are dealt with and difficulties locating taxpayers' assets when judgment is granted in favour of the Authority.

## **N: INTELLIGENCE, RISK MANAGEMENT AND SPECIAL INVESTIGATION DIVISION**

This Division is mandated to manage a centralized database through ongoing collection of data which is tested and analysed to determine tax fraud, insolvency, smuggling or any other activity which presents a risk to the operations and objectives of the Authority and to disseminate such information to management to protect and enhance revenue collection.

Staff of this Division conducted fourteen (14) surveillance, monitoring and intelligence gathering activities on reported tax evaders while sixty-eight (68) such activities were carried out on suspected tax evaders.

## **ANNUAL REPORT & STATEMENT OF ACCOUNTS**

A total of twenty-nine (29) reports on tax evasion were received; these were sourced via the Hotline, from other functional areas within the Authority as well as gathered from TRIPS. Of the twenty-nine (29) reports received, investigations were completed for twenty seven (27) or 93% and where necessary information was forwarded to the relevant functional areas for further action. Two (2) investigations based on currency declaration reports were also conducted. Further, staff of the Division profiled twelve (12) taxpayers and forwarded this information to the relevant functional areas of the Authority.

For the period under review, the Risk Management Section profiled a total of fifty-seven thousand, five hundred and seventy-eight (57,578) import and export declarations. Of this amount, two thousand, four hundred and thirty-two (2,432) import declarations were profiled for document review, fourteen thousand two hundred and ninety-one (14,291) for verification of declared particulars, three thousand, seven hundred and sixty-six (3,766) for examination of items and twenty-three thousand, nine hundred and eighty-eight (23,988) were approved for processing with declared particulars.

Export declarations profiled for scanning amounted to four thousand, seven hundred and thirty (4,730), while those profiled for verification of declared particulars were two thousand, four hundred and twenty-two (2,422). The number of export declarations profiled for examination of items totalled five thousand, three hundred and sixty-four (5,364) while the declarations approved for processing with declared particulars amounted to five hundred and eighty-five (585).

### **O: PLANNING AND ANALYSIS DIVISION**

The Planning and Analysis Division is responsible for ensuring that Guyana Revenue Authority's mandate is fulfilled through effective planning, forecasting, coordinating, organizing, monitoring and evaluating of financial and non-financial work programme commitments; analyzing results achieved by the various operational areas in relation to their respective Annual Work Programmes in order to improve tax administration; providing critical support to the Office of the Budget-Ministry of Finance, Commissioner General and GRA's Senior Managers in order to improve tax administration, resolve non-compliance and generate increased revenues.

Consequently, the Planning and Analysis Division prepared an executive summary of the Authority's 2012 Annual Work Program in relation to nineteen (19) functional areas. Two (2) General Management meetings were coordinated during the period under review and thirty-six (36) monthly and fortnightly revenue collection statements were prepared and dispatched to the Ministry of Finance and the Chairman of the Governing Board.

Further, thirty-three (33) monthly analytical revenue reports and twelve (12) monthly revenue collection reports were prepared for submission to the Governing Board. Two hundred and six (206) Management Information System (MIS) reports were generated for senior management within the Authority while twenty-two (22) reports were generated for external agencies.

The Division also completed ninety-eight (98) special assignments in relation to Work Program commitments and revenue collection projections and analyzed two hundred and forty-nine (249) monthly reports on Work Program commitments and results achieved which were submitted by all functional areas.

## **P: CONTAINER SCANNER AND GOODS EXAMINATION DIVISION**

The Division was formally established in June 2011 and comprises two (2) sections namely the Container Scanner Section and the Goods Examination Section. The Container Scanner Section is mandated to use the Portal Scanner to facilitate a more advanced and efficient system of examination of containerised cargo for narcotic substances to meet international requirements. The Goods Examination Section is mandated to conduct physical examinations of cargo for import and export to ensure they are consistent with their declarations, to prevent the passage of illegal items/un-customed goods and narcotic substances through the ports of entry and to ensure that the correct duties and taxes are applied.

Staff of the Goods Examination Section carried out examinations on both incoming and outgoing consignments. The incoming consignments which were examined included seven thousand, five hundred and forty six (7,546) containers, a combined total of one hundred and seventy thousand, three hundred and twelve (170,312) skids, pallets, boxes and crates, five thousand and twenty two (5,022) vehicles inclusive of industrial vehicles and two thousand, four hundred and twenty one (2,421) motor cycles. As a result of those examinations, seventy (70) instances of short shipment of cargo and an additional forty four (44) instances of various other discrepancies were identified resulting in those consignments being temporarily detained pending rectification by the importer. All incoming cargo, apart from those temporarily detained, were released in a timely manner.

Outgoing cargo that were examined and sealed comprised twenty eight thousand, four hundred and forty one (28,441) containers, a combined total of thirty thousand, two hundred and forty three (30,243) skids, pallets, boxes, barrels, and crates, twelve thousand, two hundred and fifty (12,250) boxes containing soil samples, precious metal and monetary notes and one (1) truck. In addition, one hundred and sixty-three (163) vessels, on which bulk cargo was loaded, were also examined. Of the total number of containers examined, fourteen thousand, two hundred and ninety five (14,295) were scheduled for scanning before being released for shipping and one hundred and twenty two (122) were detained for various discrepancies.

The Container Scanner Section received two thousand, five hundred and eighty nine (2,589) declarations related to consignments for export and two (2) declarations related to consignments for imports which were all flagged for scanning. As a result, three thousand, nine hundred and forty one (3,941) letters were issued to exporters to present containers to be scanned and twelve thousand, two hundred and fifty seven (12,257) containers were scheduled for scanning. Of those containers scheduled for scanning, twelve thousand and eighty two (12,082) were scanned of which one hundred and twenty (120) were detained after scanning due to concerns about the contents.

Staff of the Division also conducted one hundred and fifty nine (159) exercises with other investigative Divisions of the Authority and examined documentation to facilitate the use of the Permit for Immediate Delivery (PID) and Prior to Processing (PTP) systems by importers and exporters.

## **ANNUAL REPORT & STATEMENT OF ACCOUNTS**

### **Q: REVENUE PROTECTION UNIT**

This Unit is mandated to enhance revenue collection by ensuring that duties and taxes on imported goods are correctly assessed and to ensure that the TRIPS valuation database is maintained in a timely manner.

The Revenue Protection Unit selected two thousand, four hundred and forty-six (2,446) declarations for review and completed the review of two thousand, four hundred and forty-four (2,444) of them. Of the amount completed, one thousand, four hundred and sixty-two (1,462) were reassessed for additional revenue amounting to five hundred and forty-six million, five hundred and thirty-eight thousand, five hundred and forty-eight dollars (\$546,538,548.00) representing a 12.5% increase when compared with the \$485,481,475.00 in additional revenue collected in 2011. The number of declarations which were accepted with declared values and other particulars amounted to nine hundred and eighty-two (982).

During the process of carrying out the review of those declarations, one thousand and seventy (1,070) declarations were recommended for physical examination of cargo and/or verification of declared particulars while three hundred and eighty (380) declarations were recommended for post clearance audit.

REPORT OF THE AUDITOR GENERAL  
TO THE MEMBERS OF THE GOVERNING  
BOARD OF THE GUYANA REVENUE AUTHORITY  
ON THE FINANCIAL STATEMENTS FOR  
THE YEAR ENDED 31 DECEMBER 2012

I have audited the accompanying financial statements of Guyana Revenue Authority which comprise the statement of financial position as at 31 December 2012, the income and expenditure statement and statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

*Management's responsibility for the financial statements*

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Generally Accepted Accounting Principles, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatements, whether due to fraud or error.

*Auditor's responsibility*

My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with International Standards on Auditing (ISAs) issued by the International Federation of Accountants (IFAC), the International Standards of Supreme Audit Institutions (ISSAIs) and the Audit Act 2004. Those standards require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedure that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

# ANNUAL REPORT & STATEMENT OF ACCOUNTS

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

## *Basis for Qualified Opinion*

The sum of \$600M was received during the year 2012 for payment of refunds of revenue to taxpayers. Of this sum, \$548.194M was reported as related expenditure for the year ended 31 December 2012. However only \$18.860M was expended during 2012 and the remainder of \$529.334M was utilized during 2013 to 2016 for refund payments. This is in breach of Section 43 of the Fiscal Management and Accountability Act 2003 which requires that any unexpended balances be returned to the Consolidated Fund at the end of the fiscal year. Further, this is in contravention of the cash basis of accounting which requires that sums spent are recorded in the year of payment. As a result, expenditure for the year 2012 is overstated by \$529.334M.

## *Qualified Opinion*

In my opinion, except for the effect of the matter described in the Basis for Qualified Opinion section of my report, the financial statements give a true and fair view, in all material respects, of the financial position of the Guyana Revenue Authority as at 31 December 2012 and of its financial performance and its cash flows for the year then ended, in accordance with Generally Accepted Accounting Principles.

# **ANNUAL REPORT & STATEMENT OF ACCOUNTS**

## **GUYANA REVENUE AUTHORITY NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2012**

### **NOTE 1 (a): BACKGROUND**

Prior to the year 2000, two separate entities, namely the Inland Revenue and Customs and Excise Departments were tasked with the responsibility of collecting revenue from taxes and duties respectively. The respective Heads of these Departments were Commissioner- Inland Revenue Department and Comptroller – Customs and Excise who were accountable to the Minister of Finance. These agencies were part of the wider Public Service and were governed by the laws, rules and regulations of the Public Service.

The aims of merging the two entities included the consolidation of resources (human and financial), the integration of functions to eliminate overlaps, improving infrastructure and building technical capacity to expand services to taxpayers with the overall objective of strengthening the Ministry of Finance to improve revenue collection.

As a means of achieving these aims, structural adjustment was seen as the way forward in improving the organization's efficiency and effectiveness in tax reform, collection and revenue generation. Thus, Consultants from the Inter-American Centre of Tax Administration (CIAT) were contracted under the World Bank Project to prepare a Design and Implementation Plan for the creation of a Revenue Authority. The Guyana Revenue Authority was established with the passing of the Revenue Authority Act #13 of 1996 and became operational on January 27, 2000.

### **NOTE 1 (b): DISCLAIMER**

The Financial statements for the year 2012 were signed by Mr. Rawle Lucas, Chairman of the Governing Board and Mr. Godfrey Statia, Commissioner- General in the year 2018. It must be duly noted, that these individuals did not serve in the respective capacities during the Financial year 2012.

**NOTE 18: Reallocation of Capital funds**

The total appropriation for capital for the year 2012 was \$463.04M; of this amount \$417.53M was allocated to and expended under the 'Current Programme.' This expenditure was necessary to complete works to the CLICO building. The building is rented by GRA and owned by the National Insurance Scheme (NIS). As such, capital works conducted to the building must be expensed under the 'Current Programme.'

Additionally, \$5.43M of funds initially budgeted for under the 'Current Programme' were expended on urgent capital items. At the time, capital funding was not available and subsequent to this period a change of programme was inadvertently not requested by Guyana Revenue Authority for approval from Ministry of Finance for these items. Therefore, these amounts were capitalised and accounted for on the Balance Sheet.

In light of the foregoing, the amended capital allocation was \$50.94M (given the reduction of \$417.53M and inclusion of \$5.43M in the 'Capital Programme'). Total expenditure for capital amounted to \$49.91M; this resulted in a liability of \$1.03M as at 31st December, 2012 which will be remitted to the Consolidated Fund. See table below.

<b>TOTAL</b>		-	-	<b>405,000,000</b>	<b>370,749,529</b>

**NOTE 20: Subsidies from Government of Guyana**

Releases under current expenditure amounted to \$3,537.65M. However, \$417.53M of the capital allocation was expended under the 'Current Programme'. Whilst \$5.43M of current funds were reallocated to the 'Capital Programme'. Therefore, the total amended subsidies under current expenditure amounted to \$3,949.76M. Please refer to note 18.
