TITUTIONAL STRENGTHENING MEASURES

ELECTRONIC PAYMENT SYSTEM

During the year, the Guyana Revenue Authority commenced discussions with Commercial Banks to establish facilities which will allow taxpayers to remit their taxes electronically. The system will be similar to that which utility companies have in place with the local banks and will include a telebanking feature. The decision to implement this payment system was made in an effort to improve the service provided to taxpayers and to reduce the high volume of traffic at the Authority's Headquarters resulting from the consolidation of the Georgetown Offices. It is expected that this system will become operable during the first quarter of 2014.

INSTALLATION OF SCANNER AT CHEDDI JAGAN INTERNATIONAL AIRPORT (CJIA)

The GRA has acquired and installed a scanner at the CJIA to detect persons who try to evade customs duties by making a declaration that goods are for personal use when instead the goods are imported in commercial quantities. The scanner was acquired through funding from the Inter- American Development Bank at a cost of US\$100,000.

ONLINE MONITORING OF DECLARATION STATUS

A new online feature was launched which allows for the monitoring of Customs Declaration status by importers, exporters and brokers. This web-based feature enables them to access the information from their laptops or smart phones and eliminates unnecessary trips to the Customs and Trade Administration.

REDUCED PAPERWORK FOR PROCESSING CUSTOMS DECLARATIONS

In keeping with the provisions of the Customs Act, Chapter 82:01 the Commissioner-General of the Guyana Revenue Authority revised the requirements of submitting four (4) copies of each document, including the Form C72 when entering Customs Declarations. The revision enabled persons to file their

ANNUAL REPORT & STATEMENT OF ACCOUNTS

documents in duplicate with effect from September 1, 2013. The revision was aimed at simplifying Customs procedures, reducing the need for large storage space, decreasing the dwelling time of cargo and by extension, decreasing the costs associated with these activities.

IMPORTATION OF GOODS CONTAINING OZONE DEPLETING SUBSTANCES

The Guyana Revenue Authority intensified its campaign to ensure that importers are in compliance with the restriction placed on the importation of ozone depleting substances in keeping with the regulations made under Order No. 19 of 2007 of the Trade Act, Chapter 91:01. The Order limits the amount of hydrochlorofluorocarbons (HCFCs) and other ozone depleting substances that can be imported. Therefore, persons desirous of importing these harmful gases or equipment containing same must obtain the required permit the National Ozone Action Unit (NOAU).

Over time, approximately fifty (50) Customs and Enforcement Officers have been trained on Ozone Depleting Substances and the procedures used in the fight against their illegal importation. A number of importers have been found guilty of violating the order and have been advised of the requirements to avoid future breach.

NEW LEGISLATION

INCOME TAX

With effect from year of assessment January 1, 2014 the rate of tax upon the changeable income of every person, other than a company, was reduced from 33 1/3 % to 30 %.

Further, the Income Tax Act was also amended to grant partial relief from tax to first time home owners by allowing a deduction of interest payments on mortgage loans (Mortgage Interest Relief). The relief is limited to 30% of the interest paid on the principal sum of a loan not exceeding G\$30M.

PROPERTY TAX

The valuation date of properties for Property Tax purposes was changed from January 1, 1991 to January 1, 2011.

In addition, the first schedule to the Property Tax Act was amended by increasing the non-taxable net property from 7.5 million to 40 million dollars and to charge the remainder of net property at $\frac{3}{4}$ of one percent in the case of individuals, and by increasing the non-taxable net property from 1.5 million to 10 million dollars and to charge the next 15 million at $\frac{1}{2}$ of one percent and every dollar of the remainder at $\frac{3}{4}$ of one percent in the case of companies.

M: DEBT MANAGEMENT DIVISION

This Division is mandated to utilise the investment made in automation combined with efficient collection strategies to ensure that taxes which are due and debts which are outstanding are collected/recovered in a timely manner thereby maximizing revenue collection.

The Division continued to monitor collections of outstanding tax balances and was able to determine arrears taxes partly through the process of file clearing. During the period under the number of tax files cleared amounted to one thousand, five hundred and seventy-six (1,576) of which four hundred and

ANNUAL REPORT & STATEMENT OF ACCOUNTS

sixty nine (469) were related to Companies and one thousand, one hundred and seven (1,107) to individual taxpayers.

A total of thirteen billion, eight hundred and six million, four thousand, three hundred and twenty-one dollars (\$13,806,004,321.00) in arrears taxes were identified through this process and liability letters were dispatched to delinquent taxpayers. Arrears taxes collected as a result amounted to eleven billion, five hundred and fifteen million, eight hundred and ninety-six thousand, seven hundred and ninety-five dollars (\$11,515,896,795.00).

Some of the constraints experienced by the Division in its drive to collect outstanding revenue included:

- ❖ Difficulty locating taxpayers.
- ❖ Numerous mails to taxpayers being returned as a result of taxpayers not available to receive same.
- ❖ Taxpayers not responding readily to correspondence and also making numerous requests for extension of time.
- ❖ Taxpayers resorting to various schemes to frustrate the efforts to collect outstanding revenue.
- ❖ Matters which are taken before the Courts not being dealt with in a timely manner. The Courts, in many instances, grant the delinquent taxpayers further time to comply.
- ❖ Difficulties locating assets owned by the taxpayers when judgments are entered against them.

There were no special exercises to collect outstanding taxes. The process of collecting outstanding assessed tax is an ongoing one and strategies are presently in place to aid in the collection of the taxes eg. visits, telephone calls etc.

N: INTELLIGENCE, RISK MANAGEMENT AND SPECIAL INVESTIGATION DIVISION

This Division is mandated to manage a centralized database through ongoing collection of data which is tested and analysed to determine tax fraud, insolvency, smuggling or any other activity which presents a risk to the operations and objectives of the Authority and to disseminate such information to management to protect and enhance revenue collection.

For the period under review, the Risk Management Unit profiled a total of forty six thousand, five hundred and sixty two (46,562) declarations for imports and twelve thousand, one hundred and sixty-six (12,166) declarations for exports. Of the declarations for imports which were profiled, two thousand, six hundred and fifty-eight (2,658) were profiled for document review, fifteen thousand, seven hundred and

The Intelligence Section of the Division completed a total of two hundred and forty-five (245) investigations. Those investigations were based on information received through various sources inclusive of the Hotline, Internal Memoranda, e-mails as well as on monitoring and surveillance activities conducted by staff. Upon completion of the investigations, reports were prepared and forwarded to various Divisions of the Authority for necessary follow up action to be taken. One hundred and seventeen (117) reports were forwarded to the Audit and Verification Division, ninety-two (92) to Debt Management, seventeen (17) to the Law Enforcement and Investigation Division and the remaining to the Internal Affairs Division, Licence Revenue Office and the Integrated Regional Tax Offices.

O: PLANNING AND ANALYSIS DIVISION

The Planning and Analysis Division is mandated to ensure that Guyana Revenue Authority's mandate is fulfilled through effective planning, forecasting, coordinating, organizing, monitoring and evaluating of financial and non-financial work programme commitments; analyzing results achieved by the various operational areas in relation to their respective Annual Work Programmes in order to improve tax administration, provide critical support to the Office of the Budget-Ministry of Finance, Commissioner General and GRA's Senior Managers in order to improve tax administration, resolve non-compliance and generate increased revenues.

Consequently, the Planning and Analysis Division prepared thirty-six (36) monthly and fortnightly revenue collection statements for dispatch to the Ministry of Finance and the Chairman of the Governing Board and an executive summary of the Authority's 2013 Annual Work Program in relation to nineteen (19) functional areas.

During the year under consideration, staff of the Revenue Protection Division selected a total of two thousand, seven hundred and two (2,702) declarations for review and completed the review of two thousand, six hundred and thirty-four (2,634) declarations. Of those completed, the declared value of the items on one thousand, seven hundred and four (1,704) declarations were re-assessed while the remaining nine hundred and thirty (930) declarations were accepted with their declared values.

The re-assessment of the declared values resulted in the recovery of \$591.63 million in additional revenue while fines to the value of \$1.97 million were levied on the offending importers. This resulted in total revenue of \$593.6 million being collected. That amount exhibited an increase of 8% over the revenue recovered by the Division during the year 2012.

Q: CONTAINER SCANNER AND GOODS EXAMINATION DIVISION

The Division comprises two (2) sections namely the Container Scanner Section and the Goods Examination Section. The Container Scanner Section is mandated to use the Portal Scanner to facilitate a more advanced and efficient system of examination of containerized cargo for narcotic substances to meet international requirements. The Goods Examination Section is mandated to conduct physical examinations of cargo for import and export to ensure they are consistent with their declarations, to prevent the passage of illegal items/un-customed goods and narcotic substances through the ports of entry and to ensure that the correct duties and taxes are applied.

Staff of the Goods Examination Section carried out examinations on both incoming and outgoing consignments. The incoming consignments which were examined included nine thousand, nine hundred

As a result of those examinations, seventy nine (79) instances of short shipment of cargo and an additional fifty eight (58) instances of various other discrepancies were identified resulting in those consignments being temporarily detained pending rectification by the importer. There was also the perusal of eleven thousand, six hundred and fifty two (11,662) documents to facilitate the examinations. All incoming cargo, except for those temporarily detained, were released in a timely manner.

Outgoing cargo that were examined and sealed comprised forty thousand, five hundred and eighty three (40,583) containers of various sizes, a combined total of thirty eight thousand, four hundred and eighty nine (38,489) skids, pallets, boxes, barrels, and crates, two thousand three hundred and one (2,301) boxes containing soil samples, precious metal and monetary notes and nine (9) trucks. **REPORT OF THE AUDITOR GENERAL
TO THE MEMBERS OF THE GOVERNING
BOARD OF THE GUYANA REVENUE AUTHORITY
ON THE FINANCIAL STATEMENTS FOR
THE YEAR ENDED 31 DECEMBER 2013**

I have audited the accompanying financial statements of Guyana Revenue Authority, which comprise the statement of financial position as at 31 December 2013, the income and expenditure statement and statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Generally Accepted Accounting Principles, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's responsibility

My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with International Standards on Auditing (ISAs) issued by the International Federation of Accountants (IFAC), the International Standards of Supreme Audit Institutions (ISSAIs) and the Audit Act 2004. Those standards require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedure that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

ANNUAL REPORT & STATEMENT OF ACCOUNTS

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Basis for Qualified Opinion

The sum of \$660M was allocated from the 2013 appropriation for payment of refunds to taxpayers, but was received during the year 2014. This was accounted for as income in the year ended 31 December 2013, which contravenes the cash basis of accounting where monies are recorded in the year of receipt. As a result, income is overstated by the sum of \$660M.

The sum of \$660M was shown as refund of revenue payments for the year ended 31 December 2013. However, these sums were expended out on the 22 December 2014 but observed as recorded in the cash book for the year 2013. This is in contravention of the cash basis of accounting, which requires that sums spent are recorded in the year of payment. As a result, expenditure for the year 2013 is overstated by \$660M.

Qualified Opinion

In my opinion, except for the effect of the matters described in the Basis for Qualified Opinion section of my report, the financial statements give a true and fair view, in all material respects, of the financial position of the Guyana Revenue Authority (GRA) as at 31 December 2013 and of its financial performance and its cash flows for the year then ended, in accordance with Generally Accepted Accounting Principles.

ANNUAL REPORT & STATEMENT OF ACCOUNTS

GUYANA REVENUE AUTHORITY NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2013

NOTE 1 (a): BACKGROUND

Prior to the year 2000, two separate entities, namely the Inland Revenue and Customs and Excise Departments were tasked with the responsibility of collecting revenue from taxes and duties respectively. The respective Heads of these Departments were Commissioner- Inland Revenue Department and Comptroller – Customs and Excise who were accountable to the Minister of Finance. These agencies were part of the wider Public Service and were governed by the laws, rules and regulations of the Public Service.

The aims of merging the two entities included the consolidation of resources (human and financial), the integration of functions to eliminate overlaps, improving infrastructure and building technical capacity to expand services to taxpayers with the overall objective of strengthening the Ministry of Finance to improve revenue collection.

As a means of achieving these aims, structural adjustment was seen as the way forward in improving the organization's efficiency and effectiveness in tax reform, collection and revenue generation. Thus, Consultants from the Inter-American Centre of Tax Administration (CIAT) were contracted under the World Bank Project to prepare a Design and Implementation Plan for the creation of a Revenue Authority. The Guyana Revenue Authority was established with the passing of the Revenue Authority Act #13 of 1996 and became operational on January 27, 2000.

NOTE 1 (b): DISCLAIMER

The Financial statements for the year 2013 were signed by Mr. Rawle Lucas, Chairman of the Governing Board and Mr. Godfrey Statia, Commissioner- General in the year 2018. It must be duly noted, that these individuals did not serve in the respective capacities during the Financial year 2013.
