Ministry of Home Affairs (now Ministry of Public Security). 142. A total of one hundred and seventy (170) signs and one hundred and sixty two thousand, four hundred (162,400) meters of road markings were done.

CONCLUSION

143. It is evident that speeding by motorists, inattentiveness, total disregard for traffic regulations and lack of appreciation for Road Safety were among the principal causes of the high rate of Fatal and other accidents during 2016. An important fact generally overlooked is the absence of streetlights in populated areas which, is a great contributory factor to road accidents.

144. The department performed creditably despite constraints, such as: shortage of manpower, materials and other equipment. The vigilance of Traffic personnel was sustained on our roads.

145. The efficient performance shown by the Traffic ranks will be maintained, to allow a free flow of traffic and a consequent reduction in the number of accidents on the roads.

The work of the office of the DPP was complimented by the Police Legal Adviser.

OPERATIONS

149. For the year 2016, the Criminal Investigations Department maintained its operational capabilities in all divisions. It was supported in its efforts by the Anti-crime Groups from the Tactical Services Unit, Divisional IMPACT Bases, and functional Community Policing Groups nationwide, local and foreign Law Enforcement Agencies as well as Social Welfare Providers.
