PURCHASES AND SALES

5. The quantity of rice purchased by the Board during the period under review was 1,358,027 bags equivalent to 109,127 tons.

6. Sales of rice by the Board during the period amounted to 1,305,662 bags/104,919 tons of which 169,909 bags/13,653 tons were sold for local consumption and 1,135,753 bags/91,266 tons were exported.

7. Contractual and non-contractual exports of rice for the year are set out in Table 'A' and 'B' at Appendix "F."

DOMESTIC CONSUMPTION

8. In addition to the quantity of 13,653 tons of rice sold by the Board for Local consumption, 343,307 bags equivalent to 27,597 tons were retained by producers for their own consumption. The total domestic consumption of rice thus amounted to 41,250 tons.

9. It was estimated that a further quantity of 26,430 tons of paddy equivalent to 17,000 tons of rice was used for animal feed and seed planting.

CROP RESULTS AND PROSPECTS

10. The 1965 Autumn and 1966 Spring Crops yielded 134,225 tons of rice and 11,800 tons of rice respectively totalling 146,025 tons of rice for the year.

11. The total availabilities for the year, including the carry over of 30,576 tons from the previous year, thus amounted to 174,263 tons of rice which were disposed of as follows:

#### EXPORT MARKETS

12. The main export markets remain the West Indian Islands with indications of an increase in the requirements of some of the territories. Sales to Guadeloupe and Martinique continued to rise and sales to Guadeloupe, in particular trebled over the previous year. In addition to bulk rice, packaged rice sales to Martinique showed an upward climb and from all indications the Board now holds 85% of both markets.

During the period under review the Board purchased a Mira Pak Packaging Machine for packaging rice in polythene bags in order to bring its packaging in line with that obtained on both the United Kingdom and the United States markets. Arrangements were made with seven merchants in Jamaica to package rice for them under their own brand names and it is anticipated that 10,000 tons of packaged rice would be put on this market in addition to the regular requirements of bulk rice.

During this period the Connell Rice & Sugar Co., Inc., of Westfield, New Jersey, U.S.A., with whom the Board had entered into an agreement to sell its surplus rice on the world market, sold 26,676 tons of rice to new world markets such as Dakar, Liberia and the Ivory Coast.

The Board effected a sale of 10,000 tons of Second Quality parboiled rice to India on a barter arrangement for bags and twine. A shipment of 5,000 tons was made but the second shipment of 5,000 tons has not yet been supplied because of the unavailability of the same quality. In view of the fact that the sale was effected on a contract basis the Board may be forced to deliver the second half of the contract.

REPORT OF THE AUDITORS ON THE ACCOUNTS OF  
THE GUYANA RICE MARKETING BOARD  
FOR THE YEAR ENDED 30TH SEPTEMBER 1966

We have examined the Accounts of the Guyana Rice Marketing Board, which are in agreement with the books of the Board, and report that we have obtained all the information and explanations we have required.

We further report that, in our opinion, the foregoing Balance Sheet dated 30th September, 1966, and the Income and Expenditure Account for the year ended on that date, are properly drawn up so as to give respectively a true and correct view of the state of the Board's affairs at 30th September, 1966, and of the excess of expenditure over income for the year then ended, in accordance with generally accepted accounting principles applied on a consistent basis.
