## PREFACE

### Introduction

The purpose of these Estimates is to present to the National Assembly information on the expenditure requirements and revenue forecasts of the Government for the fiscal year and, where required, to seek authority for such expenditure through an Appropriation Act. The authorities identified in these Estimates are divided into two categories: appropriated and statutory. Appropriated authorities are those for which the Government must seek approval from the National Assembly on an annual basis. Statutory authorities, e.g., public debt, are those for which the National Assembly has already provided on an ongoing basis, through the approval granted by specific legislation containing an appropriation authority. These are included in the Estimates for information only.

The basic structure of the Estimates presented to the National Assembly takes the form of three volumes and follows a theme of presenting the initial data at a high level of aggregation followed by more detailed information. **Volume 1** is divided into four Sections. Section 1 - The Expenditure and Revenue Plan - summarises the Current and Capital Expenditure requirements of the Central Government, and forecasts of Revenues; Section 2 provides details of the Current Expenditure requirements of each Agency within the Estimates; Section 3 gives details of the Capital Expenditure requirements of Agencies and project execution units within Agencies; and Section 4 provides specific macroeconomic data in support of the Budget, certain personnel related data, and the budgets of Statutory Bodies for the fiscal year. **Volume 2** describes the programme structures, objectives, strategies and impacts of each Agency as well as summarised financial performance data. **Volume 3** provides information on the profiles of projects included in the capital expenditure plan, including justification and expenditure details and capital expenditure by Programme.

### The 2009 Main Estimates in Summary

There are eleven Government-wide summary tables that are included in Section 1 of Volume 1.

- a) Table 1 - identifies the forecast and actual surplus or deficit of the Consolidated Fund Current Account for the fiscal years covered by the Estimates;
- b) Table 2 - identifies the forecast and actual surplus or deficit of the Consolidated Fund Capital Account for the fiscal years covered by the Estimates;
- c) Table 3 - shows a summary of capital and current revenue and expenditure and the overall surplus and deficit;
- d) Tables 4, 5 and 6 - show the forecast and actual revenue of the Government for the fiscal years covered by the Estimates;
- e) Table 7 - provides the forecasted expenditure requirements of each Agency included in the Estimates and by type of authority (annual votes for current and capital expenditure, and statutory);
- f) Table 8 - provides a summary by Agency of current expenditure requirements for the fiscal years covered by the Estimates;
- g) Table 9 - provides a summary of current expenditure in accordance with the Chart of Accounts for the fiscal years covered by the Estimates;

- h) Table 10 - summarises capital expenditure by Division for the fiscal years covered by the Estimates.

Section 2 of Volume 1 of the Estimates presents the expenditure requirements by Agency. Throughout this Section, expenditure details are displayed in four columns: Actual 2007, Budget 2008, Revised 2008, and Budget 2009. Budget 2009 relates to the forecasted amount to be appropriated and disbursed during the fiscal year 2009. Revised 2008 figures reflect the latest unaudited expenditure of the previous fiscal year. Budget 2008 indicates the amount that was approved by the National Assembly for the 2008 fiscal year. Actual 2007 indicates the actual expenditure for 2007.

Each Agency presentation begins with an Agency summary table that shows the amount of Statutory and Appropriated authorities assigned to the Agency for all Programmes within the Agency. The next table provides details on the Actual Staffing for the Agency. The next series of tables provides a summary of Statutory and Appropriated authorities for each Programme within the Agency. Each Programme financial summary is preceded by the Programme Objective. The subsequent series of tables report the individual Programme expenditure details in accordance with the Government's approved Chart of Accounts with details of Actual Staffing for the Programme. Also included in Section 2 is Agency 90 - Public Debt, followed by the details of the public debt, education subventions and grants, and contributions to local and international organisations.

Section 3 of Volume 1 provides a summary of capital expenditure by type and source of financing, as well as details on capital expenditure.

Section 4 of Volume 1, through a series of Appendices in support of the Budget, contains information on selected macroeconomic items such as national accounts aggregates of the economy, gross domestic product, real output index, balance of payments, monetary survey, consumer price index, financial operations of the public sector, loan guarantees issued by the Government of Guyana, selected details on the servicing of the external debt. Section 4 also presents selected personnel and other employment related information as compiled by Public Service Ministry. Finally, this section presents the budgets of Statutory Bodies for the fiscal year.

Volume 2 provides detailed information concerning programme structures, objectives, strategies and impacts of each Agency as well as summarised financial performance data.

Section 1 of Volume 3 provides a profile of each capital project included in the Budget for the current fiscal year.

Section 2 of Volume 3 is revised to reflect capital expenditure by Agency and Programme.

## **Major Changes in these Estimates**

### **Programme Structure**

Under the sub-programme Main Office the activity Regional Development Secretariat has been renamed Administrative Support Services, while under the sub-programme Hinterland Affairs the activity Amerindian Residence has been renamed "Health & Welfare" to more accurately reflect the functional services being provided by the Ministry for the Amerindians who travel to Georgetown from remote hinterland communities to seek medical attention.

Additionally, a new sub-programme Community Development and Governance and its accompanying activity have been introduced to ensure that the expenditure associated with the administrative function and the community development and governance function of the Ministry are separated.

Under the Public and Police Service Commission the activities Junior Services and Senior Services have been merged and renamed Human Resource Management to more accurately capture the functions being performed by the Commission.

### **Table Format and Content**

Central Government Details of Revenue Estimates, Table 6 - Volume 1, page 8 Value Added Tax total includes the miscellaneous value added tax category (line 598) in addition to Imports and Domestic Supplies, thus to arrive at this total in Tables 4(a) and 4(b) in Volume 1 and Tables 1 and 2 in Volume 2 the value added tax miscellaneous category must be added to the Value Added Tax category.
