- _ The Guyana Prison Service
- The Guyana Fire Service

During the year under review the Ministry was under the political direction of Minister Feroze Mohamed.

Again, as was noted in 1993 the various departments and divisions of the Ministry were operated without their full complement. Vacancies existed at various levels.

The activities and responsibilities of the Ministry through its component departments and divisions during 1994 were as stated hereunder:

- 1.
- Maintenance of Public Order and Safety Declaration of Public Holidays 2.
 - 3. Administration of Road Traffic
- 4. Immigration
 - Citizenship 5.
- : 6. Gambling Prevention
 - 7. Fire Protection

 - National Registration 9.
 - 10. Registration of Births, Marriages and Deaths
 - 11. Parole Board

Some measure of internal and external training was done during 1994 as is shown under special initiative.

The Guyana Prison Service although faced with the continued problem of recruiting and retaining personnel had an increment of twenty (20) ranks. There were one hundred and forty (140) staff vacancies at the end of 1994 in a required task force of four hundred and fifty (450).

The phemonenon of a high level of female staff prevailed. The number of female staff employed in 1994 was one hundred and twenty three (123) - reflecting 40% of ranks employed.

The Administration continued to expose members of staff to training both internally and externally.

Members of staff continued to be involved in sports and cultural activities

The rehabilitation of physical structures particularly at New Amsterdam, Mazaruni, Georgetown Prisons and Head Office, continued during 1994. To this end the sum of nineteen million, three hundred and seventeen thousand, five hundred and ten dollars (\$19,317,510) was expended.

Further the Department acquired one (1) five ton truck and one (1) mini bus at a cost of four million, three hundred and seven thousand dollars (\$4,307,000.00).

The Prison Self-Support Scheme (PRISS) continued to provide an avenue for the Department and inmates to earn funds. At the end of 1994, the Scheme had a cash balance of one million, two hundred and twenty-three thousand, three hundred and ninety one dollars and seventy-seven cents (\$1,223,391.77) as compared to eight hundred and eighty-six thousand three hundred and seventyfour dollars an fifty cents (\$886,374.50) at the end of 1993.

The TUCK Shop also continued to assist in the supply of

basic needs to prisoners. The cash balance of the HUCK Shop at 1994.12.31 was two hundred and eighty-six thousand, three hundred and eighty three dollars and seventy-five cents (\$286,383.75) as compared to two hundred and seven thousand, nine hundred and fifty-nine dollars and twenty-seven cents (\$207,959.27) at 1993.12.31.

The Guyana Fire Service despite being plagued with a manpower shortage continued to meet the demands made on it. The strength of the Service was 60.6%, with 145 vacancies out of an establishment of three hundred and sixty-eight (368).

The rehabilitation of building at Headquarters, Leonora, West Ruimveldt Workshop and Campbellville continued during 1994 at a cost of eight million dollars (\$8000,000.00).

Forty-four (44) properties were completely destroyed by fire in 1994. This showed an increase of twenty-one (21) when compared to the 1993 figure.

Fire fatalities were eleven (11) an increase of six (6) when compared with the 1993 figure.

The General Register Office performed quite satisfactorily and especially in the area of Search and Transcription. The high morale of the staff in spite of unsatisfactory working conditions is to be commended.

During the year under review, there was an increase in the price of death, births and marriage certificates.

In accordance with the specification of the Pan American Health Organization and the Ministry of Health, Form 2, Death Registration was amended.

Twenty-six (26) new Registration Centers were created throughout the country particularly in the Interior Regions. These new centers will serve to improve the registration of births and deaths in the various regions.

As reported in 1993, no chemical or other preservation activity was undertaken. Hence the deterioration and destruction of registers and documents continued in 1994. Every effort will be made to ensure the early computerization of this department.

Notwithstanding, the constraints mentioned and other difficulties under which the staff functioned, revenue collected altogether through the issue of certificates and the performance of marriages totaled three million, five hundred and twenty-one thousand and thirty-one dollars and eighty-two cents (\$3,521,031.82).

The main focus of the National Registration Centre in 1994 was the spearheading of all plans that were necessary for a free, fair and transparent Local Government Elections. The department enjoyed the confidence of all political parties and contending groups in the Local Government Elections. Instructive manuals and video tapes among other documents, were used in the preparation of staff for the said Elections. All necessary support was given to the Guyana Elections Commission in 1994 by the Department.

The Photographic Unit prepared thirty-one thousand, two hundred and fifty-two (31,252) identification cards for distribution throughout the country.

The general staff development programme allowed members of staff to participate in professional courses internally and externally. Generally, the various departments of the Ministry of Home Affairs performed favorably during 1994. Particularly the National Registration Centre during the Local Government Elections held in August.

Credit must also be given to the Registrar General and Staff for the improvement shown in the issuing of birth and other certificates to members of the public. Once again the Public Service Ministry contributed, through the provision of training courses, to the development of staff of this Ministry.

It also accounted for all expenditure on goods and services acquired; managed disbursement of funds under the capital budget; collected and accounted for revenue; checked and verified all property and ensured that adequate security existed for the safe guard of all public funds.
