

TWELFTH PARLIAMENT OF GUYANA – FIRST SESSION (2020-2021)

NATIONAL ASSEMBLY

NOTICE PAPER NO. 63

Member Giving Notice: **Mr. David Patterson, M.P.**

MOTION

**NATURAL GAS FLARING AT THE ESSO EXPLORATION AND PRODUCTION
GUYANA LIMITED**

WHEREAS Esso Exploration and Production Guyana Limited (EEPGL) was on June 1, 2017, granted an Environmental Permit, No. 20160705-EEDPF, to undertake Phase 1 of the Liza Development Project (Liza 1) which included, the use of a Floating Production, Storage, and Offloading (FPSO) vessel “to process, store and offload the recovered oil during production operations within the Stabroek Block”;

AND WHEREAS the Liza 1 Permit (Clause 1.10) enjoined the Permit Holder, EEPGL, to “Employ effective operational and maintenance systems on all aspects of the facility whose failure could impact the environment...”;

AND WHEREAS the Liza 1 Permit (Clause 3.6) expressly prohibits flaring and venting; with exceptions being made for “tank flashing emission, standing/working/breathing losses” and flaring related to the startup of the FPSO, emergencies or during periods of maintenance;

AND WHEREAS EEPGL has routinely been engaged in flaring in direct contravention of the terms of the Liza 1 Permit issued and acknowledged, and as a result, has caused, and is causing substantial damage to the environment and the credibility of the Liza 1 Development Project;

AND WHEREAS calculations based upon reported EEPGL's production data shows that zero flaring, except for the small amount allowed for pilot flaring, may be achieved by reducing oil production by approximately 15,000 bopd;

AND WHEREAS according to Clause 13.1 in the Liza 1 and Liza 2 Permits, "The Environmental Protection Agency reserves the right to review and amend the conditions attached to this Permit",

BE IT RESOLVED:

That this National Assembly expresses its dissatisfaction, that all reasonable measures have not been taken or are being taken to prevent the flaring of gas as currently exists, and which reported by EEPGL to be 16 million cubic feet, per day (mcf) at the designed maximum safe oil production limit of 120,000 barrels oil, per day (bopd).

BE IT FURTHER RESOLVED:

That the National Assembly calls on the Government of Guyana:

1. To direct Esso Exploration and Production Guyana Limited to abide by the terms and conditions of the Liza 1 Permit issued on June 1, 2017;
2. To request that the Environmental Protection Agency takes all reasonable measures to ensure compliance including, EEPGL achieving zero flaring at the Liza 1 Project through reduction of oil production rates; and suspension of same Liza 1 Permit if zero flaring is not met, until it is satisfied that all reasonable and lawful efforts are being made to ensure that there is no flaring of gas as has occurred over the past several weeks; and
3. To request that the Liza 1 and Liza 2 Permits be immediately amended by the EPA to become consistent with the updated conditions in the Payara Permit, relative to flaring.
