**SCHEDULE***Sections 2 and 3***Convention Abolishing the Requirement of Legalisation for Foreign Public Documents  
done at the Hague on the 5<sup>th</sup> day of October, 1961**

The States signatory to the present Convention,

Desiring to abolish the requirement of diplomatic or consular legalisation for foreign public documents,

Have resolved to conclude a Convention to this effect and have agreed upon the following provisions:

**Article 1**

The present Convention shall apply to public documents which have been executed in the territory of one Contracting State and which have to be produced in the territory of another Contracting State.

For the purposes of the present Convention, the following are deemed to be public documents:

- (a) documents emanating from an authority or an official connected with the courts or tribunals of the State, including those emanating from a public prosecutor, a clerk of a court or a process-server ("*huissier de justice*");
- (b) administrative documents;
- (c) notarial acts;
- (d) official certificates which are placed on documents signed by persons in their private capacity, such as official certificates recording the registration of a document or the fact that it was in existence on a certain date and official and notarial authentications of signatures.

However, the present Convention shall not apply:

- (a) to documents executed by diplomatic or consular agents;
- (b) to administrative documents dealing directly with commercial or customs operations.

**Article 2**

Each Contracting State shall exempt from legalisation documents to which the present Convention applies and which have to be produced in its territory. For the purposes of the present Convention, legalisation means only the formality by which the diplomatic or consular agents of the country in which the document has to be produced certify the authenticity of the signature, the capacity in which the person signing the document has acted and, where appropriate, the identity of the seal or stamp which it bears.

**Article 3**

The only formality that may be required in order to certify the authenticity of the signature, the

capacity in which the person signing the document has acted and, where appropriate, the identity of the seal or stamp which it bears, is the addition of the certificate described in Article 4, issued by the competent authority of the State from which the document emanates.

However, the formality mentioned in the preceding paragraph cannot be required when either the laws, regulations, or practice in force in the State where the document is produced or an agreement between two or more Contracting States have abolished or simplified it, or exempt the document itself from legalisation.

#### Article 4

The certificate referred to in the first paragraph of Article 3 shall be placed on the document itself or on an "*allonge*"; it shall be in the form of the model annexed to the present Convention.

It may, however, be drawn up in the official language of the authority which issues it. The standard terms appearing therein may be in a second language also. The title "Apostille (Convention de La Haye du 5 octobre 1961)" shall be in the French language.

#### Article 5

The certificate shall be issued at the request of the person who has signed the document or of any bearer.

When properly filled in, it will certify the authenticity of the signature, the capacity in which the person signing the document has acted and, where appropriate, the identity of the seal or stamp which the document bears.

The signature, seal and stamp on the certificate are exempt from all certification.

#### Article 6

Each Contracting State shall designate by reference to their official function, the authorities who are competent to issue the certificate referred to in the first paragraph of Article 3.

It shall give notice of such designation to the Ministry of Foreign Affairs of the Netherlands at the time it deposits its instrument of ratification or of accession or its declaration of extension. It shall also give notice of any change in the designated authorities.

#### Article 7

Each of the authorities designated in accordance with Article 6 shall keep a register or card index in which it shall record the certificates issued, specifying:

- (a) the number and date of the certificate,
- (b) the name of the person signing the public document and the capacity in which he has acted, or in the case of unsigned documents, the name of the authority which has affixed the seal or stamp.

At the request of any interested person, the authority which has issued the certificate shall verify whether the particulars in the certificate correspond with those in the register or card index.

#### Article 8

When a treaty, convention or agreement between two or more Contracting States contains provisions which subject the certification of a signature, seal or stamp to certain formalities, the present Convention will only override such provisions if those formalities are more rigorous than the formality referred to in Articles 3 and 4.

#### Article 9

Each Contracting State shall take the necessary steps to prevent the performance of legalisations by its diplomatic or consular agents in cases where the present Convention provides for exemption.

#### Article 10

The present Convention shall be open for signature by the States represented at the Ninth Session of the Hague Conference on Private International Law and Iceland, Ireland, Liechtenstein and Turkey.

It shall be ratified, and the instruments of ratification shall be deposited with the Ministry of Foreign Affairs of the Netherlands.

#### Article 11

The present Convention shall enter into force on the sixtieth day after the deposit of the third instrument of ratification referred to in the second paragraph of Article 10.

The Convention shall enter into force for each signatory State which ratifies subsequently on the sixtieth day after the deposit of its instrument of ratification.

#### Article 12

Any State not referred to in Article 10 may accede to the present Convention after it has entered into force in accordance with the first paragraph of Article 11. The instrument of accession shall be deposited with the Ministry of Foreign Affairs of the Netherlands.

Such accession shall have effect only as regards the relations between the acceding State and those Contracting States which have not raised an objection to its accession in the six months after the receipt of the notification referred to in sub-paragraph *d*) of Article 15. Any such objection shall be notified to the Ministry of Foreign Affairs of the Netherlands.

The Convention shall enter into force as between the acceding State and the States which have raised no objection to its accession on the sixtieth day after the expiry of the period of six months mentioned in the preceding paragraph.

#### Article 13

Any State may, at the time of signature, ratification or accession, declare that the present Convention shall extend to all the territories for the international relations of which it is responsible, or to one or more of them. Such a declaration shall take effect on the date of entry into force of the Convention for the State concerned.

At any time thereafter, such extensions shall be notified to the Ministry of Foreign Affairs of the Netherlands.

When the declaration of extension is made by a State which has signed and ratified, the Convention shall enter into force for the territories concerned in accordance with Article 11. When the declaration of extension is made by a State which has acceded, the Convention shall enter into force for the territories concerned in accordance with Article 12.

#### Article 14

The present Convention shall remain in force for five years from the date of its entry into force in accordance with the first paragraph of Article 11, even for States which have ratified it or acceded to it subsequently.

If there has been no denunciation, the Convention shall be renewed tacitly every five years.

Any denunciation shall be notified to the Ministry of Foreign Affairs of the Netherlands at least six months before the end of the five year period.

It may be limited to certain of the territories to which the Convention applies.

The denunciation will only have effect as regards the State which has notified it. The Convention shall remain in force for the other Contracting States.

#### Article 15

The Ministry of Foreign Affairs of the Netherlands shall give notice to the States referred to in Article 10, and to the States which have acceded in accordance with Article 12, of the following:

- (b) the signatures and ratifications referred to in Article 10;

- (e) the extensions referred to in Article 13 and the date on which they take effect;
- (f) the denunciations referred to in the third paragraph of Article 14.

In witness whereof the undersigned, being duly authorised thereto, have signed the present Convention.

### **EXPLANATORY MEMORANDUM**

The purpose of this Bill is to give the Hague Convention of 5<sup>th</sup> October, 1961 on Abolishing the Requirement of Legalisation for Foreign Public Documents the force of law in Guyana. Recognising that the need to produce public documents abroad is greater due to increased cross-border mobility and interactions at the global level, the Convention seeks to establish a regime among Contracting States for the mutual recognition of foreign public documents through the issuance of an Apostille certificate by the relevant Competent Authorities in the Contracting States.

The issuance of an Apostille certificate certifies the authenticity of any signature, the capacity in which the person signing the document has acted, and where appropriate, the identity of any seal or stamp appearing on the foreign public document. Authentication by an Apostille certificate provides an alternative to the traditional and cumbersome formalities for the legalisation of foreign public documents, therefore providing a more effective means of authenticating foreign public documents.

**Clause 2 of the Bill** sets out the definition of key words and terms used throughout the Bill. It also provides that the Act shall not be construed as imposing any requirement for the authentication of a document in the absence of any law of Guyana or, if applicable, any law of a Contracting State requiring the authentication of a document.

**Clause 3 of the Bill** establishes that the Convention shall have the force of law in Guyana.

**Clause 4 of the Bill** states that the Act applies to the recognition of a foreign public document originating from, and authenticated in the territory of, a Contracting State to be produced in Guyana and the authentication of a public document originating from Guyana to be produced in the territory of a Contracting State. Public documents include documents issued by or originating from an authority or an official connected with the courts or a tribunal, administrative documents, judicial documents, notarial acts and official certificates.

This Act will not apply to public documents originating in Guyana to be produced in Guyana, documents executed by diplomatic or consular agents or administrative documents dealing directly with customs operations.

**Clauses 5 and 6 of the Bill** address the Competent Authority and its functions. **Clause 5** designates the Chief of Protocol within the Ministry with responsibility for foreign affairs as the Competent Authority. However, the Minister can designate, if needed, another person or entity to function as the Central Authority. **Clause 6** provides that the Competent Authority shall keep and maintain the Register of Apostilles referred to in section 14, keep and update a list of the Competent Authorities of Contracting States and perform any other duties as may be prescribed.

**Clauses 7 and 8 of the Bill** address the issuance of the Apostille certificate and its effect. **Clause 7** provides that the authentication of a public document or the recognition of the authentication of a foreign public document shall be by means of the addition to that document of an Apostille certificate issued by a Competent Authority which is in conformity with the requirements of Article 4 of the Convention and the form as set out in the Annex of the Convention. The validity of an Apostille certificate shall not expire. However, such certificate shall not be regarded as valid if (a) it is not attached to, or has become detached from, the document it purports to authenticate; (b) it is not legible; (c) it has been in any way defaced, altered, or otherwise tampered with; or (d) it has been procured fraudulently or used for a fraudulent purpose.

**Clause 8 of the Bill** provides that an Apostille certificate issued by a Competent Authority shall be effective to authenticate the origin of a public document or a foreign public document on which the Apostille certificate has been placed by certifying the authenticity of the signature on that document, the capacity in which the person signing the document has acted and the identity of any seal or stamp that the document bears. This clause also stipulates that the Apostille certificate is *prima facie* evidence of the matters aforementioned in any proceeding before a court, and for the purposes of any person performing a function or exercising a power under any law. A court, or a person performing a function or exercising a power under law in Guyana, shall not require any other formality other than the Apostille certificate to certify the matters aforementioned.

The Apostille certificate is not effective to certify the contents of the public document or foreign public document, the compliance with any legal requirement for the execution of the public document or the foreign public document or the acceptance, admissibility or probative value of the public document or the foreign public document.

**Clause 9 of the Bill** sets out the manner in which requests for authentication of public documents should be made and the matters of which the Competent Authority should be satisfied of before the issuance of an Apostille certificate.

**Clause 10 of the Bill** provides that the Competent Authority in Guyana shall specify the fees payable to the Authority for the authentication of documents under this Act.

**Clause 11 of the Bill** provides that the Competent Authority may permit requests, payments and issuance of Apostille certificates to be done electronically.

**Clause 12 of the Bill** provides for the exemption of certain documents from any requirement for legalisation. These documents are public documents to be produced in a Contracting State from Guyana that qualify for authentication under this Act and foreign public documents authenticated by the Competent Authority of a Contracting State to be produced in Guyana.

**Clause 13 of the Bill** provides that this Act shall not invalidate any formality accepted under any other law for notarising, certifying or otherwise evidencing the authenticity of a document or signature on a document or the capacity in which the person signing the document has acted or the identity of any seal or stamp that the document bears.

**Clauses 14 and 15 of the Bill** provide for the Register of Apostilles and its contents. **Clause 14** provides that the Competent Authority shall keep and maintain a Register of Apostilles which shall have a record of all Apostille certificates issued by the Competent Authority. **Clause 15** provides that the register shall keep record of the particulars of the Register of Apostilles which shall include, *inter alia*, the number and date of the Apostille certificate and the particulars identifying

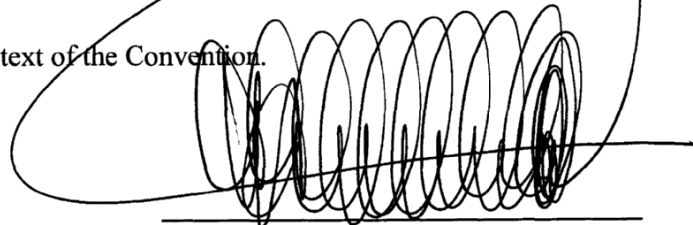

the public document on which the Apostille certificate was placed, a brief description of the type of document, any identifying number and date in relation thereto.

**Clause 16 of the Bill** provides that the Competent Authority shall, upon receiving a written request from any person, verify the particulars of an Apostille certificate that was issued.

**Clause 17 of the Bill** provides for a range of offences related to the Apostille certificate. It stipulates that, inter alia, any person who (a) falsifies an Apostille certificate; (b) tampers with or alters an Apostille certificate or any record or particulars in the Register of Apostilles; or (c) possesses or receives an Apostille certificate that the person knows was fraudulently procured or has been used or is intended to be used for fraudulent purpose commits an offence. The penalty for the offences under this clause, is on summary conviction, a fine not exceeding five hundred thousand dollars or a term of imprisonment not exceeding six months or to both a fine and imprisonment.

**Clause 18 of the Bill** provides that the Minister, may by order, amend the Schedule in accordance with any amendments made to the Convention. **Clause 19 of the Bill** gives the Minister the power to make Regulations for carrying out or giving effect to the provisions of the Act or the Convention.

**The Schedule to the Bill** sets out the text of the Convention.
